| AB 97       | Mendoza       | Support (State Update: 4/17/07) | Would limit the use of trans fat by retail food facilities. It would require every food facility except a public school cafeteria to maintain on their premises the labeling information for any food or additive used that includes any fat, oil, or shortening. |             |               | Support and Amend (State Update: 7/9/07)      | PREVIOUSLY: Was amended to expand the definition of a qualifying infill project to include census-designated places with a population density of at least 2,500 residents per square mile. In addition, a dollar for dollar grant match provision was eliminated in favor of a requirement that the relevant legislative body make a finding that the funds are necessary for the economic viability and feasibility of the project and the improvements are of general community benefit.  |                              |
|             |               | Oppose Unless Amended (State Update: 6/28/07) | INITIALLY: Would have provided for the allocation of \$850 million Affordable Housing Initiative Fund contained in the Housing and Emergency Shelter Trust Fund Act of 2006 (Proposition 1C). However, the \$450 million in funding to be transferred to HCD would have been available to qualifying cities and counties and would have narrowly limited a “qualifying infill project” to those located within an incorporated city. Thus, the bill would have precluded an unincorporated community from qualifying for the competitive grant program. |                              |
