Los Angeles, CA 90012

Dear Supervisors:

**STATE LEGISLATIVE AGENDA FOR THE SECOND YEAR
OF THE 2009-10 SESSION
(ALL SUPERVISORIAL DISTRICTS AFFECTED) (3 VOTES)**

SUBJECT

The following recommendations represent the updated policies and proposals for the second year of the 2009-10 Legislative Session, which were developed in coordination with your Board Offices, County departments, the Legislative Strategist and the Sacramento advocates. This package, together with other positions previously adopted by your Board, will guide our State advocacy efforts.

THEREFORE, IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve the attached additions, deletions, and changes to existing Board-adopted policies and positions for inclusion in the 2010 State Legislative Agenda.
2. Instruct the Chief Executive Officer (CEO), affected departments, the Legislative Strategist, and the Sacramento advocates to work with the Los Angeles County delegation, other counties and local governments, and interest groups to pursue these policies, positions, and priorities in the State Legislature and with the Administration and its agencies.

3. Direct the Sacramento advocates to pursue legislation to expand the County's existing real property transaction notification program to include the notification and application of surcharge when notices of default or sale are recorded to inform property owners of real estate fraud protection and foreclosure prevention options and resources.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTIONS

The recommended changes seek to minimize the adverse impact of State actions on the County, achieve greater flexibility over the use of State funds, secure State assistance whenever possible, especially from non-General Fund sources, and promote the growth of the State and local economy.

FISCAL OUTLOOK

During 2009, the Governor and the Legislature enacted an estimated \$60.0 billion in solutions to address the State Budget deficit through June 30, 2010. The solutions included a combination of funding shifts, revenue increases, Proposition 1A of 2004 borrowing, deferrals of payments to counties, use of one-time Federal Stimulus funds, and major program reductions falling most heavily on health and human services, education and corrections. **The State Budget reductions resulted in estimated County losses of \$150.1 million in FY 2008-09 and \$276.4 million in FY 2009-10, for a total two-year loss of \$426.5 million.**

On November 18, 2009, the Legislative Analyst's Office (LAO) released its fiscal outlook, which projects a State Budget shortfall of \$20.7 billion through the end of FY 2010-11, and annual deficits of approximately \$20.0 billion thereafter through FY 2014-15. The Governor has also indicated that the State's shortfall would be at least \$12.4 billion to \$14.4 billion through June 30, 2011.

According to the LAO, the Legislature made many difficult decisions to close the \$60.0 billion budget shortfall through the end of FY 2009-10; however, the LAO points out that it may be more difficult to address the \$20.7 billion shortfall in FY 2010-11 because many of the one-time solutions used to balance the budget in 2009 are no longer available. In addition, the State continues to face numerous fiscal uncertainties and risks, such as lawsuits related to prior budgetary actions, which if the courts rule against the State, could increase the budget shortfall by millions or billions of dollars.

Since FY 2007-08 the State General Fund has been reduced by an estimated 17.3 percent from \$102.3 billion to \$84.6 billion in FY 2009-10. The primary reasons for the decline are major drop in revenues because of the economic slowdown and enacted solutions to balance the State Budget over the past two years. As such, the Governor and the Legislature are faced with the difficult task to find solutions to address a budget

deficit which would represent about 24 percent of the State General Fund by the end of FY 2010-11. As a result of the State's bleak economic outlook, the absence of substantial legislative support for additional revenues, and the State's obligation to meet General Fund spending requirements such as Proposition 98 and debt service costs for voter approved bonds, the County will once again be faced with the possibility of major program curtailments in FY 2010-11 and future fiscal years.

It is anticipated that the Governor will be calling for a new Special Session in December for the Legislature to return to Sacramento to begin work to address this latest fiscal crisis.

COUNTY LEGISLATIVE PRIORITIES

The impact of the previous two State budgets has extended throughout the full spectrum of the County's responsibility for safety net and protective services. The two-year loss of \$426.5 million greatly affected the County's ability to maintain vital services for its residents, and the potential of additional State Budget cutbacks would be experienced most deeply in the delivery of health care, social services, and public safety. Because of the State's continuing fiscal problems and the reductions in State financial support already imposed on the County, our State advocacy efforts will be concentrated on the priorities listed below in 2010.

State Budget. As indicated above, given the State's chronic budget problems and the uncertain economic environment, **the County will focus its advocacy efforts on the restoration and preservation of State funding, working primarily through the budget process.** In addition, the County will continue to support adequate funding for programs it operates on behalf of the State, and oppose additional program reductions unaccompanied by a commensurate diminution of responsibility and any attempt to shift costs to the County.

Health Care Financing. California's current 1115 Medicaid Waiver, which funds disproportionate share hospitals and indigent care, is set to expire in August 2010. The State Department of Health Care Services is working on the Waiver renewal and will engage stakeholders to assist in the development of the agreement. The next Waiver is vital for the County. It should provide additional resources and focus on reforming the health care delivery system through the development of additional medical homes and coordinated care for the patients we serve, while containing costs.

In the upcoming year, **the County will seek, in collaboration with other stakeholders, the Administration, and the Legislature, to ensure that the renewal of the Medicaid Waiver maximizes the drawdown of Federal funds for services and facilities to support and strengthen the County's health care system and**

safety net, and to expand health care coverage and access for low-income individuals.

Corrections Reform. In August 2009, a three-judge Federal court panel ordered the State to reduce the prison population, over two years, to 137.5 percent of its design capacity which would have resulted in the release of an estimated 46,000 inmates. The State filed an appeal of the court order before the U.S. Supreme Court, but ultimately complied with the three-judge panel and submitted a plan in September 2009. The plan was rejected in October and the State submitted a revised plan on November 12, 2009. However, it is anticipated that once the final court order is issued, the three-judge panel will require the State to make further reductions to meet the required prison population level.

As the State continues to seek for ways to comply with the court order, it is very likely that it would have to re-visit options such as the alternative custody proposal which would allow for the early release of elderly and medically infirm inmates, and the proposal to eliminate some “wobbler” crimes which are currently considered as either felonies or misdemeanors. If enacted, these proposals would impose significant costs on the County’s health, social services and public safety programs. **Therefore, the County will seek to be included in the development and implementation of any Corrections Reform proposals which affect the County and its residents. The County will also pursue funding to provide adequate services to assist offenders in the successful completion of probation, avoid subsequent criminal activities, and enable them to successfully reintegrate back into their communities.**

Major Reform Proposals. As a result of the ongoing State Budget crisis, the political gridlock within the Legislature and between the Governor and legislators, and other major problems in Sacramento, a number of organizations such as, California Forward and Repair California, are in the process of pursuing initiatives aimed at: 1) reforming the State Budget process and local government financing; 2) convening a Constitutional convention; and 3) further protecting local revenue sources, such as property taxes, transit, transportation and redevelopment funds. In addition, the Legislative Leadership has created the State and Assembly Select Committees on Improving State Government. These efforts are expected to result in reform measures for placement on the November 2010 General Election ballot or legislative recommendations to reform the State Budget process.

Given the interdependence and the complexity that characterizes the relationship between counties and the State, it is very important that the County carefully analyzes and advocates on any reform proposals which may have major policy and fiscal implications for the County. **Therefore, the County will analyze and participate in the development of any reform measures which have a major fiscal or operational impact on County programs and/or operations.**

Water Quality Initiative. Stormwater and urban runoff drain into the flood control system, waterways, and ultimately into the ocean with virtually no treatment. The County, the City of Los Angeles, and other cities within the County are seeking to construct watershed management projects that can remove pollutants from runoff.

All cities and County unincorporated areas face critical water quality challenges. The Los Angeles Area Regional Water Quality Control Board enforces the Total Maximum Daily Loads (TMDLs), which is the amount of various pollutants that can go into waterways and still meet public health standards. Each pollutant has its own specific TMDLs, which applies to all cities and unincorporated areas, whether along the ocean or far inland with seemingly no connection to waterways. There are significant fines for violations of each TMDLs, ranging from \$10,000 to \$25,000 per day/per violation. Currently, the Los Angeles County Flood Control Act authorizes the Los Angeles County Flood Control District (District) to levy taxes to pay the obligations of the District, but does not allow the District to impose a fee to mitigate stormwater runoff TMDLs.

Therefore, the County will pursue legislation to authorize the District to implement stormwater fees, upon voter approval consistent with the requirements of Proposition 218, to fund clean water programs.

RECOMMENDED CHANGES TO THE COUNTY'S STATE LEGISLATIVE AGENDA

The changes in the Attachment represent requests from County departments and commissions to add or modify policy statements consistent with their operational goals and plans. New policy statements represent emerging programs and issues for which we are seeking your Board's concurrence to guide future advocacy efforts. Some policies are no longer applicable, and therefore, have been removed. The recommended changes include modifications to policy statements for various items including: procurement of diesel-electric powered hybrid fleet vehicles; authority for the issuance of County bonds to securitize loans to offset the State's borrowing of property taxes; full funding for Youth Offender Block Grant; extension of the time period to expend Proposition 1B transportation funds when the State defers Proposition 42 and/or Highway Users Tax Administration funds; and various public health initiatives.

All other previously adopted State Legislative Agenda policies and positions remain in effect; and as such, advocacy will continue on these matters. A revised comprehensive list of all State Legislative Agenda policy statements will be published subsequent to consideration of the changes included in this letter.

Legislation for which the County will seek sponsorship, consistent with existing Board policies and positions, was provided in the October 30, 2009 Sacramento Update. However, it should be noted that the State's fiscal condition will likely affect the Legislature's receptivity to any County sponsored legislation with potential State cost

increases. The State's dire fiscal condition will also require that the County's advocacy be focused primarily on the State Budget.

PROPOSAL FOR COUNTY SPONSORSHIP IN 2010

On January 13, 2009, your Board approved a motion by Supervisor Ridley-Thomas, which directed the CEO to report back on, among other things, efforts to address the foreclosure and real estate fraud crisis. The motion also directed the Registrar-Recorder and the Department of Consumers Affairs to report back on the feasibility of instituting a mechanism to provide information and assistance to homeowners when a notice of default is recorded.

On March 17, 2009, the CEO provided your Board a report regarding how the County can move forward to provide strategic and effective assistance to homeowners that face foreclosure and/or real estate fraud. The report contained a recommendation to enhance the County's existing real property transaction notification program by pursuing legislation which would authorize the County to: 1) provide notification to homeowners and lawful occupants of the property upon the recording of notices of default or sale; 2) charge a fee for the recording of notices of default and sale; and 3) utilize revenue generated by the real estate transaction fees to inform property owners of real estate fraud protection and foreclosure prevention options.

Existing law authorizes the County to charge a fee up to \$7 at the time a deed, deed of trust, or quitclaim deed is recorded and to mail a notification to homeowners. The Board approved fee is currently at \$4. Since 1997, the County has operated a homeowner notification program to notify property owners when such documents are recorded, and to inform them about real estate fraud protection and forgery. The mailings also instruct homeowners to contact the County's Department of Consumer Affairs for information and assistance.

The Registrar-Recorder indicates the proposed legislation would enhance the existing notification program to inform property owners and potentially tenants of property subject to foreclosure that such action has been initiated. According to Department of Consumer Affairs, the proposal could augment the existing public assistance and education program by providing information on real estate fraud protection and foreclosure prevention options and resources to homeowners in default. County Counsel drafted and approved legislative language to pursue this proposal.

IMPLEMENTATION OF STRATEGIC PLAN GOALS

The proposed policies and proposals in the State Legislative Agenda are consistent with the County's Strategic Plan Goals of: 1) Operational Effectiveness; 2) Children, Family

and Adult Well-Being; 3) Community and Municipal Services; 4) Health and Mental Health; and 5) Public Safety. These goals are achieved by:

- recommending new policies and revisions to existing Board-adopted policies to respond to State actions affecting the County and current economic conditions and challenges;
- providing timely advocacy on proposals that could significantly affect County programs and services; and
- pursuing legislation to secure new funding sources and oppose reductions in program funding or new unfunded mandates on the County.

CONCLUSION

The recommended general policies and updated proposals in the Attachment are submitted for your Board's consideration as the guiding principles for the County's advocacy efforts in the second year of the 2009-10 State Legislative Session. The policies and proposals contained in this package are in addition to, and are not intended to be exclusive of, other positions your Board may adopt. As in the past, the State Legislative Agenda will be updated to reflect subsequent Board actions.

Respectfully submitted,

WILLIAM T FUJIOKA

General State Legislative Principles

The County will seek to maximize State revenues; full funding for the costs of State programs; additional funding for programs where service needs have outpaced stagnant or slow growing revenues; funding formulae which ensure an equitable allocation of State funding; minimize the adverse impact of State actions; achieve greater flexibility over the use of State funds, secure State assistance whenever possible, especially from non-General Fund sources, preserve the County's property tax, sales tax, locally-imposed taxes or fees, or Vehicle License Fee revenue base; oppose: the shift of programs unless control is also shifted and State funding is guaranteed; and new unfunded mandates unless they promote a higher priority. The County also will:

1. Oppose any legislation or regulation that would transfer to Los Angeles County or its residents any costs or revenue losses incurred by another jurisdiction.
2. Support or sponsor a constitutional amendment to reallocate to local school districts the property tax revenue derived from State-assessed properties in exchange for reallocation of non-ERAF property tax revenues derived from the local roll.
3. Support proposals to restructure State and local service responsibilities if they: create a nexus between authority, responsibility, accountability, and revenues; promote program effectiveness and cost containment; and recognize the limited fiscal capacity of counties by transferring sufficient revenue in the first and subsequent years.
4. Oppose legislation to change the definition of revenue neutrality in special cases, unless other entities are protected from unintended legal precedents by language narrowly justifying the need for special legislation.
5. Support a constitutional amendment to provide that the State Budget and related bills can be approved by a majority vote.
6. Support proposals that reduce the two-thirds vote requirement for increasing revenues.
7. Oppose legislation that would constitute State unfunded land use and general plan-related mandates on local governments.

1. Children and Families

1.1 Child Welfare Services

1. Support increased funding for family preservation programs.
2. Support legislation to maintain the full Child Welfare Services allocation independent of actual caseload for up to five years to cover the increased costs of implementing new programs to improve outcomes for children by allowing them to remain safely at home, shorten their length of stay in care and reduce re-abuse.
3. Support proposals to ensure full funding for the Child Welfare Services program, including increased funding to cover all mandated services, pursuant to the SB 2030 Workload Study and the fully loaded costs of a social worker.
4. Oppose proposals that would reduce protections for child welfare workers in the legitimate exercise of their discretion in the performance of their duties, thereby increasing liability to the County.
5. Oppose unfunded mandates that do not enhance child safety or expedited permanence.
6. Support proposals to enhance adoptions by increasing funding for adoption activities and post-adoption services, and expanding to out-of-state private adoption agencies the payments currently authorized to California private adoption agencies for the unreimbursed costs of placing children for adoption.
7. Support funding of forensic medical examinations in child abuse cases.
8. Support funding for parenting programs aimed at teens and child care services for teen parents.
9. Support legislation that increases funding for the use of family group conferencing and team decision-making to develop an individualized plan for the care of each child.
10. Support legislation to clarify that agencies providing services to a family may share case information.
11. Support legislation to streamline Dependency Court procedures while ensuring the safety and best interests of children.
12. Support proposals that simplify Welfare and Institutions Code statutes regarding notice of dependency hearings.

13. Support proposals that promote collaboration between child welfare, parks and recreation and law enforcement agencies to enhance the County's ability to establish partnerships and develop programs that improve the quality of life for children.
14. Support proposals to clarify and provide for social workers' access to dependent children's medical, counseling, and education records.
15. Support proposals to fund Child Welfare Services outcome improvements included in the County's Self-Improvement Plan, including Point of Engagement, the State's AB 636 Outcomes and Accountability System and the Federal Children and Family Services Review (CFSR).
16. Support proposals that increase the types of professionals required to report suspected cases of child abuse.
17. Support proposals that enhance and improve child safety.

1.2 Child Welfare Services – Foster Care

1. Support continued eligibility of immigrant foster children for Medi-Cal and Foster Care funds.
2. Support proposals to increase appropriate foster care resources by funding targeted recruitment, review of existing foster care payment rates to ensure equity and appropriateness, and professionalizing foster parenting.
3. Support State reimbursement for the placement of dependent children who are eligible for regional center services, in for-profit group homes, when a not-for-profit facility is unavailable.
4. Support proposals that would allow counties to secure increased Federal funds for foster care and other services provided to abused and neglected children at no increased net cost to the State General Fund.
5. Support legislation and funding to allow the California Department of Social Services Community Care Licensing Division and local government to make unannounced visits to Foster Family Agency certified homes.
6. Support efforts which enhance legal permanency for children in foster care by promoting kinship adoption, enhancing Kin-GAP and supporting subsidized legal guardianship without requiring the full array of ongoing court and Child Welfare Services.
7. Support legislation and funding to facilitate successful emancipation, promote self-sufficiency and improve opportunities for youth aging out of foster care.

8. Support proposals which allow the sharing of information concerning family homes certified by foster family agencies to prevent the licensure, approval and/or re-certification of previously de-certified homes.
9. Support proposals to simplify foster care program eligibility requirements.
10. Support proposals to enhance permanency for children by streamlining and consolidating the separate studies and criminal clearances that must be administered to a caregiver for licensure, approval, and adoption.
11. Support proposals and funding to ensure that the educational system appropriately meets the educational needs of children in foster care, including improved monitoring of non-public schools.
12. Support proposals that provide and fund substance abuse treatment services for children and parents in the Child Welfare Services system.
13. Support proposals to shorten the timeframes to achieve permanence including expanding the court's authority to expedite permanency by limiting reunification services on all children if the parent has failed to participate regularly and make substantive progress in the case plan.
14. Support proposals which allow flexibility in the use of funds to provide services to families and caregivers to strengthen their parenting abilities and prevent the need for placement, shorten the length of stay and reduce re-abuse.
15. Support funding for proposals that would expand searches for relatives, provide technical assistance and training so that permanent, lifelong connections for children and youth of all ages can be achieved.
16. Support proposals that achieve permanency for previously adopted children who have returned to the foster care system as a result of an adoption disruption or the death or incapacitation of an adoptive parent.
17. Support proposals that reduce use of out-of-home placement because the best interests of children are served when they can safely remain with their parents or guardian.
18. Support proposals that improve timelines for permanent placement of dependent children to provide a safe, permanent family connection and promote emotional health, well-being, and stability.
19. Support proposals to secure credit reports for foster youth.
20. Support proposals to fully fund Emancipated Youth Stipends and the Independent Living Program.

1.3 Child Care and Child Development

1. Support efforts to enhance the quality of early care and education that set high standards for all services and program types and address the needs of all children including those with disabilities and other special needs, and their families.
2. Support efforts to develop and implement a Statewide quality rating and improvement system and a system to adjust reimbursement rates based on demonstrated quality.
3. Support efforts to develop and sustain a well-educated and highly skilled professional workforce prepared to serve the cultural and linguistically diverse child and family populations of Los Angeles County.
4. Support efforts to ensure the health and safety of all children cared for in licensed early care and education facilities as afforded by timely, regular, and frequent on-site monitoring by the California Department of Social Services, Community Care Licensing Division.
5. Support efforts to adequately fund high-quality early care and education services for all children from low and moderate income families.
6. Support efforts to streamline administrative processes to expand access for low-income families, ensure continuity of care, and promote flexible use of child care and development funding to meet the needs of families.
7. Support efforts to expand the supply of appropriate early care and education services by including these services in city and county general plans.
8. Support proposals designed to prevent, detect, investigate and, when appropriate, prosecute fraud in subsidized child care programs.
9. Support efforts to ensure that vulnerable children and their families have access to consistent, uninterrupted subsidized early care and education services.

2. Environment, Natural Resources and Recreation

2.1 Air Quality

1. Support proposals and/or funding to assist local governments to purchase hybrids, idle reduction devices, upgrade infrastructure, make facility improvements and convert vehicle fleets to alternative fuels to enable the shift toward more fuel-efficient vehicles and lower carbon fuels to reduce greenhouse gas emissions and to improve air quality.
2. Support funding to assist local government compliance with existing and pending regulations to reduce emissions from both mobile and fixed sources.

3. Support measures to develop and increase the availability and use of alternative fuels, and retrofit of existing generators and fleets.
4. Oppose cuts in assistance to local government fuel emission reduction programs.
5. Support measures that promote the development of cleaner burning fuels and other feasible technologies that help meet Federal and State air quality standards.
6. Support measures that allow for innovation and local flexibility in developing, maintaining, and expanding cost-effective programs that increase vehicle ridership.
7. Support legislation that provides increased funding for the reduction of particulate matter emissions from on-road diesel vehicles and other diesel-powered equipment such as backhoes, forklifts, air compressors, and large portable emergency generators, independent of nitrous oxide emissions.
8. Support proposals that provide authority to local and regional agencies to reduce locomotive, railyard, port, and mobile source emissions.
9. Support proposals that return a greater share of funds to local areas which generate AB 2766 revenues, and provide greater flexibility to local programs to comply with air quality rules and regulations.
10. Support measures that would require local air districts, through their On-Road Vehicle Mitigation Options, to give credit for emissions reduction to employers for their employees commuting in hybrid vehicles that have a minimum Federal Environmental Protection Agency rating of 30 miles per gallon (city).
11. Support legislation that would allow public agencies to procure on-road, diesel-electric powered, hybrid vehicles to be deployed as fleet work vehicles.
12. Oppose legislation that provides broad and categorical California Environmental Quality Act exemptions for the South Coast Air Quality Management District with respect to emission credits and the issuance of permits.
13. Support legislation that provides narrow and tailored exemptions to immediately allow essential public projects, hospitals, and historically exempted projects such as small businesses to gain South Coast Air Quality Management District permits, and emission credits.

2.2 Beaches

1. Support measures that provide funding for beach erosion and accretion monitoring and for beach sand replenishment, including full funding of the Public Beach Restoration Act of 1999.
2. Support funding to maintain clean beaches and improve the water quality of coastal waters, estuaries, bays and near shore waters.
3. Support funding for refurbishment and construction of restrooms, parking lots, accessways, lifeguard and maintenance facilities, docks, landscaping and other related beach and marina infrastructure on public beaches and at Marina del Rey.
4. Support proposals to include beaches in the definition of parks for the purpose of qualifying for park funding programs, if the beaches are in densely populated urban areas and are used by large numbers of residents as if they were an urban park.
5. Oppose legislation to provide the Coastal Commission additional discretion in approving permits for construction of seawalls, revetments, breakwaters, groins, harbor channels, or similar structures.
6. Oppose legislation to establish an off-leash dog beach in Los Angeles County unless it provides for State indemnification of the County and an appropriation to fund all additional County costs associated with an off-leash dog beach program.
7. Support ongoing funding for local agencies for the operation and maintenance of State-owned beaches, such as Will Rogers State Beach and Dockweiler State Beach.
8. Oppose proposals to eliminate the California Department of Boating and Waterways.

2.3 Environmental Protection and Open Space

1. Support increased funding for environmental protection programs and capital projects, including resource, open space, and shoreline protection, as well as Santa Monica Bay and beach restoration.
2. Support proposals to establish a Statewide endowment fund to protect, restore and maintain natural resource areas such as mountains, forests, beaches, park natural areas, preserves, wildlife/wildflower sanctuaries, greenways, riparian corridors, trails and other natural environments containing ecological, geological, habitat, cultural, recreational and scenic value.

3. Support funding for the control, removal and/or eradication of invasive species that negatively affect natural landscape and open space areas.
4. Support legislation to promote environmentally friendly programs that address reasonable protection of resources such as pesticide use, care of trees, ecological systems and open space, and use of gray and reclaimed water.
